MANAGEMENT DISCUSSION AND ANALYSIS REPORT

- **Overall Review:**

Working and operational parameters at all the plants of the Company were satisfactory during the year under review but profitability was adversely affected due to higher input costs on the one hand and severe pressure on selling prices on the other, for almost all the products manufactured by the Company.

- **Industry Structure, Developments and Performance:**

For the Textiles industry, the global focus is shifting from China to India due to cost and stability factors. The government's positive steps are expected to help this shift and if a foreign investment in textiles retail materializes, the consumption of the textile products in the domestic market should increase in the years to come.

The Company trades entire range of fabrics. It has well established span in India for dealer network of its wholesale business. The company has made a big and successful foray in to mega retail business.

In the long term, the demand for textile and clothing is on rise globally and the Indian market is in the forefront. Despite the weak sentiments, which we have witnessed last year within India and globally, the Indian textile and clothing industry is expected to continue to grow due to the burgeoning domestic market and the opportunities in the global market.

- **Opportunities & Threats:**

There is scope for growth in the textile industry as India's share in the global trade in textiles is weak, compared to other countries, based on the availability of raw material and skills. The free trade environment is a good opportunity for Indian textile industry to increase its share in the global market.

The company does not foresee any immediate threat to its domain merely because of size of its operations. Being a manufacturer, a wholesaler and its retail operations all skewed together in one company are in fact. The key factors that other competitors finds difficult to dislodge the company from its leadership position.

The company has kept pace with the advancements around and forged its synergies in innovation techniques and competes well in design and development of its range of products to beat the competition, persistent with constant innovation, astute pricing policy and highest quality standards.

- **Outlook:**

Our textile unit has increased sales to direct brands and major retail chain stores in India and abroad, which should further improve our quality, design and demand where the Company should get better realization. We are hopeful of a better year ahead.

- **Risks & Concerns:**

The company remains apprehensive about possible changes in government policies which might adversely affect the purchasing power of consumers. The company is equally concerned, about revival of economy that should propel to increase the demand and see buoyancy coming back in the market sentiments, amongst the factors which are vital for sustaining overall growth. The company is hopeful that by enlarging its capacities, retail expansion being undertaken, constantly bringing in new products through innovation and employing new marketing strategies will greatly help it in mitigating the adverse impacts apprehended above.

- **Internal Control System & Adequacy:**

The Company has an adequate internal control system which commensurate with the size and nature of its business. The internal control system is being supported by internal audits, regular reviews by management to ensure reliability of financial and all other records to prepare financial statements and other data. Further the Audit Committee of the Board review the findings and recommendations of the internal audit and suitable implementations are affected.

- **Material development in Human Relation/ Industrial Relations Front including number of people employed:**

The Company firmly believes that Human Resource Development strategies and practices will continue to provide a sustained competitive advantage and will continuously work towards nurturing and enhancing a competitively superior position in terms of human capital, people processes and employees behaviour. Your company believes that it is the quality and dynamism of its human resources that will enable it makes a significant contribution to creating enhanced values.

- **Discussion on Financial Performance:**

During the year under review, your Company has registered a turnover of Rs. 79530 360/- as compared to Rs. 119254505/- in the previous year.
